DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-3, 17-20, and 21-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of claims 1, 21 and 24 is unclear because the limitation "between adjacent isolation regions associated with the plurality of gate electrodes from the single channel region" is not clear what it means.

Since it is not possible to form a channel region without forming source and drain region, applicant needs to come up with a better claim language to explicitly identify the process steps involved.

Claims 2-3, 17-20 and 22-23 are also rejected as being dependent of the rejected independent base claims.

Claim Objections

2. Claims 1, 21 and 24 are objected to because of the following informalities: the preamble of claims 1, 21 and 24 state forming "a channel region". Since applicant is claiming forming a plurality of gate electrodes at a later stage, the preamble should read, "forming a plurality of channel regions". Appropriate correction is required.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2811
